

ANAS MEMON

Frontend Developer · Aspiring MERN Stack Developer

Hyderabad, Sindh, Pakistan · 0318-3044022 · anasmemon4personal@gmail.com · [Portfolio](#) · [GitHub](#)

PROFESSIONAL SUMMARY

Passionate and self-driven Frontend Developer with a proven track record of delivering responsive, high-quality web applications for real clients. Currently pursuing a B.S. in Information Technology at the University of Sindh (expected 2027), I bring hands-on freelance experience across the full project lifecycle — from requirements gathering and development to deployment and client communication. Proficient in HTML5, CSS3, JavaScript (ES6+), React.js, and Bootstrap 5, with a strong eye for UI/UX and mobile-first design. Actively advancing into full-stack development with Node.js, Express.js, and MongoDB. Committed to writing clean, maintainable code that delivers real-world value, and seeking an internship or part-time opportunity to grow within a professional development team.

EXPERIENCE

Freelance Frontend Developer · Self-Employed

Hyderabad, Pakistan | 2023 – Present

- Designed, developed, and deployed 6+ responsive websites for local clients, independently managing the full project lifecycle from discovery to delivery.
- Built maintainable frontends using HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, and React.js — consistently delivering on time and within scope.
- Handled all client communication, project scoping, revision cycles, and technical problem-solving with full professional accountability.
- Translated client briefs into intuitive, visually compelling interfaces by applying UI/UX fundamentals, semantic markup, and accessibility best practices.
- Improved code quality through structured self-review, refactoring, and active engagement in developer communities.
- Maintained a live portfolio of projects demonstrating component-based architecture, REST API integration, and responsive design across devices.

EDUCATION

B.S. Information Technology · University of Sindh, Jamshoro

Jamshoro, Pakistan | 2023 – 2027 (Expected)

- Relevant coursework: Web Technologies, Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Computer Networking.
- Applying frontend development skills in academic projects and independent work beyond the curriculum — bridging theory with real-world implementation.
- Successfully balancing active freelance commitments alongside full-time studies, demonstrating strong time management and professional discipline.

TECHNICAL SKILLS

Frontend: HTML5, CSS3 (Animations), JavaScript ES6+, React.js (Hooks)	Styling & Layout: Bootstrap 5, Flexbox, Grid, Responsive & Mobile-First Design
Backend (Learning): Node.js, Express.js, MongoDB, REST APIs & JSON	Tools & Workflow: Git, GitHub, VS Code, Component Architecture
Design: UI/UX Fundamentals, Wireframing, Accessibility Awareness	Soft Skills: Client Communication, Self-Management, Problem-Solving, Agile Mindset

PROJECTS

Personal Portfolio Website [React.js](#) · [CSS3](#) · [Vercel](#)

Fully responsive portfolio built with React.js functional components and hooks. Clean, modern UI with smooth navigation, well-structured component architecture, and a curated showcase of live client and personal projects. Deployed on Vercel.

WeatherWave — Real-Time Weather App [React.js](#) · [OpenWeather API](#)

Real-time weather application displaying current conditions and 5-day forecasts. Features dynamic backgrounds that adapt to weather type and time of day, dark/light mode toggle, and city search — demonstrating practical API integration and state management.

DarkReads — Book Discovery Platform [HTML5](#) · [CSS3](#) · [Bootstrap 5](#) · [JavaScript](#)

Multi-page book discovery platform spanning Horror, Sci-Fi, Thriller, Historical, and Literary Fiction. Includes Bestsellers, Author Spotlights, and Literary Analysis sections with a richly styled, immersive dark-themed design.

BulletinHub — IT Services Business Site [HTML5](#) · [CSS3](#) · [Bootstrap 5](#) · [JavaScript](#)

Professional multi-page business website with Services, About, Careers, and Contact sections. Consistent branding, clear information hierarchy, and fully responsive layout optimised for all screen sizes.

La Maison — Fine Dining Restaurant Site [HTML5](#) · [CSS3](#) · [Bootstrap 5](#) · [JavaScript](#)

Elegant multi-page French restaurant website covering Menu, Specials, Events, and Contact. Styled with Playfair Display typography for a high-end, brand-aligned aesthetic.

Travel Itinerary — Travel Agency Site [HTML5](#) · [CSS3](#) · [Bootstrap 5](#) · [JavaScript](#)

Multi-page travel agency website featuring Destinations, Bookings, Day-by-Day Itinerary, and Contact. Built with Poppins typography and a clean modern layout designed for an intuitive user experience.

CERTIFICATIONS & CONTINUOUS LEARNING

- ▶ Completed a structured, self-directed Frontend Web Development path covering HTML, CSS, JavaScript, and React.js — skills validated through 6+ live client deliverables.
- ▶ Currently advancing through a full-stack MERN development curriculum, building hands-on with Node.js, Express.js, and MongoDB to complement existing frontend expertise.
- ▶ Active in developer communities, open-source discussions, and technical forums — staying current with frontend trends, best practices, and emerging tools in the ecosystem.
